

Dear Sir

I have the honor to acknowledge the receipt of your letter of the 10th inst.

and in reply to inform you that the same has been forwarded to the proper authorities for their consideration.

I am, Sir, very respectfully,
Your obedient servant,

J. H. Thompson

Secretary

to the Board of Directors

of the American Association

for the Advancement of Science

Washington, D.C.

Enclosed for you are the reports of the various committees of the Association, which I trust will be found of interest to you.

I am, Sir, very respectfully,
Your obedient servant,
J. H. Thompson

[The page contains dense handwritten notes and calculations, mostly illegible due to extreme cursive and overlapping ink.]

Fall of Rough State of Kentucky
to the Senate and House of Representatives
of the

United States in Congress assembled;
We, Citizens of the — County, and State of —
do most earnestly, but respectfully, pray
your honorable body to pass at once a bill
that will embody the recommendations of the
National Pension Committee, Grand Army
of the Republic.

The Winter of 1886. after New-Years Day
Weather for January & February 1886
This Winter set in with comparatively mild
weather

On the 8th day of January the snow commenced
falling which continued through the day & night with
high wind which drove the snow in drifts the
thermometer more than 20 degrees below zero.

The snow having nearly melted off when on the
2nd day of February it commenced snowing ear-
ly in the morning and continued through the
day and night. The snow being quite deep, during
the night of the 3rd it cleared off very cold
Evening of the 4th Feb. Sun set behind the S.E. corner of crib
or a little to the North of a crooked tree bending to the
^{North} South as seen from a cedar tree in the yard standing
N.W. of the door. On the morning of the 5th the sun arose
behind the S.E. corner of Corn Crib as seen from S.E. corner
of chimney. Saturday 6 clear & more pleasant, show-
ing some ~~ice~~ Sunday the 7th clear & much
warmer quite smokeless appearance of a general thaw.

Feb 12 Hauled off tobacco to Charley Butler's

14 Sun arose behind and near the center of the cedar
tree at the N.E. corner of Corn Crib as seen from the
S.E. corner of chimney. Clear & beautiful morning, but
clouded up early in the day and continued cloudy
all day, snowed during the night and continues to snow
this 15 morning.

April 5 - Sheet fell on the night of the 2nd Cloudy &
gloomy with wind from the North and east, sometimes
it appears like clearing off but again becomes thick
cloudy. Still cloudy this morning (April 5)
March quite pleasant but April comes in with winter
weather.

April 6 Still cold with rain & snow. Wintery weather
or for April 7 cloudy with a covering of snow.
Clouds becoming thin & broken this morning
The cold wintery weather has given place to warm
spring weather, this is the 21st of April and all
nature is decked in green.

May the 23 very rain last night about dark
 still raining this morning; became clear in the after
 part of the day. 24 Dark and smoky weather. Cool
 25 very remarkable weather. The sun shines. very red
 cool. 26 still cool and dark, thin and broken
 clouds.

The Rainy season having passed away the
 weather is clear & pleasant. The night of the 13
 a heavy storm of wind with rain and hail
 with constant thunder & lightning.

March the 25th 1858

April 12	Recd of J. P. Haswell	6 71
	of Ch. A. Hambleton	1 05
		506 65

The year 1858, has been a very remarkable one up to this time. The Winter just past was very cold and disagreeable. Since the set in it, has been very changeable from warm to cold. The changes has often been very sudden accompanied with cold North winds. This is the 15th of May and there was considerable frost this morning. It rained a little Friday night when the wind shifted to the north and has been blowing from ever since until now, and it has been quite cold for three day or more.

§ 40 When a personal representative shall pay to a creditor an undue proportion of his demands, or to a distributee or devisee a part or all of his share or legacy, under a mistake as to the solvency of the estate, or otherwise, such personal representative may recover from the creditor, distributee, or devisee, the amount of the over payment with interest thereon.

How to make good Ink.

Good common black-ink may be made by dissolving one pound of the extract of logwood in a gallon of water, and adding an ounce of the bichromate of potash -

Bottle it and shake well for four or five days, Red ink is made by boiling a pound of red sanders in a gallon of water for an hour, pouring off the clear and adding a little dissolved alum, or what is better a bout a teaspoonful of the Chlorid of tin Blue ink is made grinding Prussian blue in water, then adding a little oxalic acid.

A small portion of gum arabic should be added to each of these inks.

Know all men by these presents that
 I have this day rented to James H.
 Keenan my house and lot in Bens
 nettville, that I have this day boug
 ht of Tho: C Pate, for the sum of
 fifty dollars, He is also to have
 the privilege of Building a house
 40 feet by 20 on the lot, the building
 of said house to be charged to me,
 The house is rented to him for one year
 with the refusal of the next,

March 6th 1856

Lancey White

James H. Heenan

$$\begin{array}{r} 2426 \overline{) 15900} \\ \underline{14556} \\ 1344 \end{array}$$

Let $\alpha = \text{As part}$

Incl 400 - x = Br part

$$\frac{300}{20} = \frac{300}{400-x} + \frac{1}{4}$$

$$DVC = \frac{300x}{400-x} + \frac{x}{4}$$

$$12000 - 300x = 300x + \frac{400x - x^2}{4}$$

$$480000 - 1200x = 1200x + 400x - x^2$$

$$2x + 480000 = 2800x$$

$$x^2 - 2800x = -480000$$

$$x^2 - 2900x + 1960000 = 1480000$$

$x = 1400$, Let $x =$ As part

$\frac{1216}{184}$ And $400 - x = 3\frac{1}{2}$ part.

$$\frac{200}{x} = \frac{200}{400-x} + \frac{1}{4}$$

$$300 = \frac{300x}{100-x} + \frac{x}{4}$$

$$12000 - 300x = 300x + \frac{400x - 2000}{4}$$

$$480000 - 1200x = 1200x + 400x - 4x$$

$$120000 - 300x = 300x + 100x - x^2$$

$$x + 120000 = 700x$$

$$x - 700x = -120000$$

$$x^2 - 700x + 122500 = 2500$$

$$2700 - 350 = 2350$$
