Scope and Content Note

The collection includes correspondence, research materials, pamphlets, and journal articles, mostly related to Arthur and Virginia Keeney's research on the Verhoeff family. The compiled research material focuses on two articles written about Frederick and John Verhoeff. Includes some papers of Dr. Frederick H. Verhoeff. Collection also contains a photocopy of a typescript of John M. Verhoeff's diary, written while he was a member of R.E. Peary's crew attempting to reach the North Pole in 1891. Photos of Frederick Verhoeff and family were transferred to the Filson's photographic collection.

Folder List

- Folder 1: Frederick Verhoeff papers, 1933-1978
- Folder 2: John M. Verhoeff diary, 1891-1892
- Folder 3: Keeney correspondence, 1959-1996
- Folder 4: Keeney articles
- Folder 5: Keeney research materials, miscellaneous
- Folder 6: Various articles, Verhoeff family genealogy
- Folder 7: National Archives pamphlets

This looks fine but you need to have a biographical note about the Keeneys and the Verhoeffs. Also, make changes to the scope and content note like those on the main entry card.
